# Toni Idowu

Atlanta, GA | tonicharity6@gmail.com | https://toniidowu.github.io/

## Professional Summary

Public health professional with 4+ years of experience spanning disease surveillance, data analysis and visualization, stakeholder engagement, prevention, and health promotion. Enthusiastic about applying analytical insights and business strategy to inform programs, guide decisions, and improve community outcomes.

## Professional Experience

**Focus People – Georgia Department of Public Health** Atlanta, GA
*Epidemiology Outreach Specialist* September 2026-Present

- Contracted to the state public health department to support maternal and infant health initiatives through data analysis, disease surveillance, and stakeholder engagement

**Care International** Atlanta, GA
*Data Consultant (MPH Capstone)* January 2026-May 2026

- Led end-to-end analysis of cross-sectional household survey data (n=1,264) to identify key drivers of skilled birth attendance, a critical maternal health outcome, in Katsina State, Nigeria
- Performed chi-square tests and prevalence analysis in R, finding education level, occupation, and geography as the strongest predictors
- Translated findings into evidence-based recommendations for CARE's EnRiCH program, supporting global health intervention planning and program evaluation

**Emory University, School of Nursing** Atlanta, GA
*Research Assistant* January 2026-May 2026

- Supported mixed-methods research on secondary victimization of Black women using qualitative data analysis
- Assisted with transcription and manuscript preparation to advance peer-reviewed research outputs

**Saikawa Lab** Atlanta, GA
*Research Assistant* August 2025-December 2025

- Cleaned and aggregated public health datasets over a 10-year period (2013–2022) in Excel and R to calculate prevalence and screening rates
- Developed an interactive dashboard of children under 6 years' blood lead levels using Department of Public Health data to illustrate exposure risk across counties in Georgia
- Presented findings in a team meeting, highlighting prevalence trends and gaps in blood lead screening and providing actionable insights for public health stakeholders

**Emory University, Office of Student Conduct** Atlanta, GA
*Public Health Intern* February 2025-May 2025

- Analyzed medical amnesty and alcohol and other drug (AOD) incident data using R to identify demographic trends, recidivism rates, and common risk factors
- Conducted a literature review on harm reduction and AOD interventions in higher education to support data-driven public health strategies
- Benchmarked peer institution policies and contributed to a needs assessment framework evaluating student awareness and protocol effectiveness

**S.M. Fasinro Memorial School** Lagos, Nigeria
*Health Educator* January 2022-July 2024

- Conducted public health education and infection prevention training per CDC guidelines
- Ensured adherence to isolation protocols for infectious diseases
- Promoted healthy habits through monthly seminars on wellness and fitness in the school and the community
- Served as case manager for children needing to be connected to medical and nutrition assistance programs

**Georgia Department of Public Health** Albany, GA
*COVID-19 Case Investigator* September 2021-December 2021

- Conducted 10+ daily phone interviews with COVID-19 patients to input data into SendSS surveillance system
- Communicated with patients to offer isolation guidance and address COVID-19 questions via phone
- Collected and organized data to identify outbreak trends in congregate settings and escalate potential risks

**Adara Foundation** Lagos, Nigeria
*Research and Program Coordinator* July 2018-July 2019

- Collaborated with foundation director to set annual project and fund-raising goals
- Collaborated with a team of six to prepare budgets and coordinate logistics for monthly community health outreaches
- Generated 50+ retail opportunities for trainees to sell products directly to designers and at trade exhibitions
- Recruited 100+ low-income applicants for skills acquisition training in textile production

## Education

**Rollins School of Public Health, Emory University** Atlanta, GA
*Master of Public Health, Epidemiology* May 2026
*Certificate in Data Science*

**Mercer University** Atlanta, GA
*Master of Business Administration (M.B.A.)* December 2020

**The University of Georgia** Athens, GA
*Bachelor of Arts, International Affairs* May 2016
*Minor in French*

- Magna Cum Laude
- Completed study abroad program in France; UGA a Paris
